March 3, 2021

To Our Valued Customers:

Subject: COVID-19 Update

As a global supplier of waste treatment technologies and equipment, PCC has successfully met all of our customer's needs and expectations during the 2020/21 COVID-19 pandemic.

In March of 2020, PCC reacted quickly to protect our employees and adapt our business practices to the pandemic restrictions. Despite these challenges, PCC has had a record year building and delivering equipment to our customers. For PCC, 2020 was a year of adding new product lines, hiring new employees, and strengthening our own business while helping our customers maintain their own businesses.

Over the next few months, PCC will return to our Pittsburgh offices as the pandemic is brought under control and the restrictions subside. We are keenly aware of this disaster this virus has played across the globe and we pray for the victim's families and for the swift recovery of our country.

We thank you for your support and your business.

Please stay safe,

William J. Huebner  
President and CEO  
Process Combustion Corporation
